Course description

Human Behavior and Social Environment I (SSW 610), 3 credits

This is a required course for the MSW degree with no prerequisite. This is the first part of a two- course sequence that is required in the MSW program. The second part of this sequence will be offered during the Spring semester.

This course provides foundation knowledge of human behavior and the social environment as a basis for direct practice with individuals and families and for the management of social service programs. Theoretical and empirical knowledge about the range of normal bio-psycho-social development and the nature and impact of oppression and discrimination as individuals and families transact with their changing environments throughout the life course.

How to enroll for the fall class:

1. Apply as a *non-degree applicant* online at: http://www.albany.edu/graduate/online_app.php
2. Send transcripts showing your bachelor's degree to Graduate Admissions

After you receive notification that you have been accepted into the non-degree program:
