TREATMENT REFERRAL LIST  
Glossary of Terms**

**Crisis:** Chemical dependence crisis services provide withdrawal and stabilization services in a short term inpatient program aimed to engage and increase motivation and successfully link the patient to the appropriate ongoing treatment.

**Detoxification:** A medical procedure employed by state certified medical or chemical dependency providers to remove the effects of a toxic substance from or to free from dependence on one or more substances such as alcohol, heroin, or other opiate.

**Medication Assisted Treatment:** A treatment approach using prescription drugs (methadone, Suboxone, or other medications) in conjunction with other therapies, that are administered by a medical professional to an individual in need of medication to treat their substance use disorder. Medication assisted treatment may be employed in an inpatient or outpatient setting.

**Outpatient:** State certified outpatient substance use disorder treatment services provided in a community-based setting according to an individualized assessment and action plan based on the needs of the person.

**Inpatient:** State certified providers of substance use disorder treatment include intensive evaluation and short-term (average stay 28 days) treatment and rehabilitation services in a medically supervised 24 hours/day, 7 days/week setting.

**Residential:** State certified residential providers assist individuals with a substance use disorder who are unable to maintain abstinence or participate in treatment without the structure of a 24-hour/day, 7 day/week residential setting, and who are not in need of acute hospital or psychiatric care.

**Outpatient Day Rehab:** State certified outpatient substance use disorder treatment services provided in a community-based setting according to an individualized assessment and action plan based on the needs of the person. Some programs specialize in adolescent services and accredited education in an on-site alternative school.
